

STUDENT TESTIMONIALS
PROFESSOR JUDYIE AL-BILALI

TH293B - BROWN PAPER STUDIO

Fall 2013

I loved the atmosphere of creativity Judyie created for us all. Judyie has so much to teach and every student, Theater major or not, can learn from her. She is inspiring, beautiful and all around a pleasure to work with. Her way of teaching is amazing.

I enjoyed the loose, experimental feel and the very integrated curriculum of the course and Judyie's method of teaching was very engaging and head-on, while also allowing students the space to explore as well. I hope this course stays in the curriculum!

I love the community feel and how everyone felt comfortable in discussions. Our teacher always encouraged dialogue...Meeting and talking with these people was wonderful.

The course raises awareness about the world's issues.

Opens people up and challenges you to speak genuine about tough topics.

Fall 2014

It is the safest space to center and find yourself on campus.

The course is unique in its focus and was inspiring to me as a theater artist.

Interactive games, clear investment in my growth in a theater setting, and how it contributes to my life in the world.

Fall 2015

I love this course and the stress-free environment which leaves room for students to create ideas.

Keep this course going! It's a seed to bigger, greater things in the fundamentals of education.

I love how safe this space felt. Coming to this class was an amazing experience.

Judyie is wonderful. Give her everything!

It allows us to talk about important issues going on in the world. Judyie is the best!

Great class, enjoyed all of it. Judyie is an outstanding person and teacher.
I like that we are talking about real issue sin the world and applying it to our art.
Judyie is an inspiration – give her everything she needs to facilitate good work.

Judyie created an environment that I felt 100% comfortable sharing, taking risks, and exploring, Judyie is the best. Actually the best. This is my favorite class.

Fall 2016

Judyie is one of the best teachers at UMass. She is a force to be wreckoned with and I am thankful that I met her and was able to be her student.

I love that she teaches us punctuality and teaches us that we can change the world. She teaches us that there is nothing that we can't do. She teaches us that we have the power to move people and change their minds.

Judyie thank you for everything that you have done for me and this company. You inspire me to do better every single day. You are my lighthouse.

I love the way Judyie facilitated class discussion and teaches us to take ownership of our bodies.
